SUMMARY

Creative, detail-oriented software engineer with a deep interest in API architecture. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a company with global reach.

WORK EXPERIENCE

- December 2022- Present *Software Engineer, 100 Devs | Los Angeles, CA (remote)*
Collaborated with a team of developers to build modern and responsive web applications using best practices. Built semantically structured full stack web applications. Applied agile methodologies for project management.
- December 2020- Present *Field Engineer, Unisys | Edison, NJ*
Private label services support. Service calls for PC & server hardware & software. Unit diagnostics, troubleshooting, preventative maintenance. Inventory management including ordering of parts. Some clients included: Dell, HP, Canon, US Govt, Meridian Health, SHI, AT&T, Verizon.

EDUCATION

Raritan Valley College, Branchburg, NJ
June 2020: Associate of Applied Science
Certified Registered Paralegal, National Federation of Paralegal Associations
